My name's Henry Mills. I'm twelve years old and I live in London. We live in a flat. It's on the third floor.

I go to Central High School.
I'm in class BA. My favourite
subjects are Maths, History
and PE. I don't like English or
Physics.

I walk to school with my friend, Nadim. He lives on the

seventh floor of our block of flats. We leave home at half past eight. School starts at twenty to nine with registration and assembly, and our first lesson starts at nine o'clock. School finishes at half past three. After school we go home and I do my homework before dinner. In the evening I watch TV or I play a computer game. I practise the guitar, too.

On Thursdays I don't go home at half past three. I have a guitar lesson at school. I'm not very good yet, but I really like it. I want to be in a band when I grow up.

On Saturday mornings Nadim and I play football at the

sports centre.

I've got a sister. Her name's Alison. She doesn't go to high school. She's seventeen years old, so she goes to sixth form college. The college isn't near our flat, so she takes the bus. She leaves home at ten past eight and her lessons start at quarter to nine.

Birthdays in Britain

On your birthday you get cards and presents from your family and friends. Parents often buy a big present like a bike or MP3 player. Other people give toys, sweets, books, clothes, CDs, DVDs and things like that.

People normally have a birthday party for their friends. There's usually a birthday cake with one candle for each year of your age. The person with the birthday blows out the candles and makes a wish. Then everybody sings Happy Birthday! People often have a party in their own home. Some older children don't have a party. They take their friends to the cinema, a bowling alley or somewhere like that.

My friend, Karl, in the Czech Republic, says that they have 'name days' in his country, but we don't have 'name days'. Karl also says that people in the Czech Republic give flowers on name days and birthdays. In Britain, we usually only give flowers to women. Alison and I give flowers to our mum on her birthday.

School Holidays

The school year always starts at the beginning of September.

There are three terms in the school year - autumn, spring and summer - and three main holidays:

- the Christmas holidays two weeks
- the Easter holidays two weeks
- the summer holidays six weeks

There are also short holidays in October, February and May. These are for one week or ten days. We call them half-term holidays, because they're in the middle of the school term.

FESTIVALS

a Christmas tree. In many countries people open their presents and have their Christmas meal

on Christmas Eve (24 December), but in Britain people normally do these things on Christmas Day (25 December). The traditional meal is turkey with vegetables, followed by

Christmas pudding. The next day (26 December) is a holiday, too. We call it Boxing Day. On Boxing Day, people often visit friends, or go to sports matches. They go shopping, too, because a lot of shops start their winter sales on Boxing Day.

On New Year's Eve, a lot of people have a party to 'see in' the new year. They often switch on the radio or the TV to hear Big Ben in London strike midnight. Then they usually join hands and sing Auld Lang Syne. In London, Edinburgh and several other cities there are big street parties with music and fireworks.

We also celebrate Easter in Britain, but it isn't a very big festival, like Christmas or New Year. The Easter holiday lasts four days from Good Friday to Easter Monday. People eat sweet bread buns called hot cross buns on Good Friday and on Easter Sunday people usually give chocolate Easter eggs. Some families have an Easter egg hunt in the garden. They hide small Easter eggs for children to find.

English Across the Curriculum

Science and Maths: time

1 1.24 Read and listen to the text. Match the pictures (a-c) to the correct paragraphs (1-3).

2 Put these words in the correct order.

a week a year a minute a day a second an hour a month

a second ...

3 Work it out.

- 1 How many seconds are there in an hour?
- 2 How many minutes are there in day?
- 3 How many hours are there in a week?
- 4 How many days are there in a period of four years?

1 What is a day?

The Earth turns. It takes one day to turn once. We divide the day into twenty-four hours. Each hour has sixty minutes and each minute has sixty seconds.

2 What is a year?

The Earth also goes round the Sun. It takes 365 days to go round once. We call this a year. In fact, it takes 365 ¼ days, so every four years we add an extra day. We always add it to February because it's a short month. In a leap year February has twenty-nine days. So if your birthday is 29 February, you only have a birthday every four years!

3 What is a month?

The Moon goes round the Earth. It takes about thirty days to go round once (this is called a lunar month). So it goes round about twelve times in one year, and that's why we have twelve months in a year. However, 12 x 30 is only 360, so we add an extra day to some months, so that we have twelve months in one year. (Nobody knows why February has only got twenty-eight days.)

We still use lunar months for some things. Easter, for example, isn't on the same date every year, because we use a lunar calendar to fix the date.

Complete the sentences with the correct numbers.

- 1 We have a leap year every _____ years.
- 2 A leap year has got _____ days.
- 3 We need leap years because the Earth doesn't take _____ days to go round the Sun. It takes _____ days.
- 4 It takes _____ days for the Moon to go round the
- 5 A lunar year has got _____ days.

b Answer the questions.

- 1 Why do we need leap years?
- Why do some months have thirty-one days? Which months are they?

5 a Answer the questions.

- 1 How long does it take you in seconds to tie your shoelaces?
- 2 How long in minutes does it normally take you to eat your breakfast?
- 3 How many hours do you normally sleep at night?
- 4 How many weeks are there until your next birthday?
- 5 How many years are there until you leave school?
- 6 How many days do you have for school holidays in a year?

 False. They are brown with grey stripes and black ears.

- 3 They can stand on two legs.
- 4 They live in pairs.
- 5 They sleep in holes in the ground.
- 6 They eat fish.
- 7 They can eat scorpions.
- 8 Eagles eat meerkats.

Work with a partner. Tell him / her about your favourite animal.

My favourite animals are meerkats. They live in southern Africa in the Kalahari Desert.

Meerkats are brown with grey stripes and black ears. They're quite small – about the same size as a rabbit. They've got a long body and a long tail, but short legs. They can stand on two legs.

They live in groups. There are between five and thirty meerkats in a group.

They sleep in holes in the ground. Early in the morning, they leave their holes and look for food. They eat insects, plants, lizards, eggs and mice. They can even eat poisonous animals like scorpions and spiders. When meerkats eat, some of them stand on two legs and guard the others. That's because some other animals like to eat meerkats. When the guards see an eagle, a snake or a fox, they bark and all the meerkats run back to their holes.

The story of Chicken Licken

Comprehension

1.36 Read and listen to the story. Answer the questions.

- 1 Where are Chicken Licken and his friends going?
- 3 Why don't they get there?

▼hicken Licken is in the farmyard. He's eating under a tree when suddenly a nut falls on his head. 'Oh, no,' says Chicken Licken. The sky is falling down. I must go to London and tell the King."

Chicken Licken runs down the road. When he meets Henny Penny, he stops. 'Where are you going?' she says. 'Oh, Henny Penny,' says Chicken Licken. 'The sky is falling down and I'm going to London to tell the King." 'Well, I must come with you,' says Henny Penny.

So Chicken Licken and Henny Penny run down the road. In the village, Ducky Lucky and Goosey Loosey are swimming on the pond.

When Chicken Licken and Henny Penny see them, they stop. 'Hello,' says Ducky Lucky. 'Where are you running to?' 'Oh, Ducky Lucky,' says Chicken Licken. 'The sky is falling down and we're going to London to tell the King. Do you want to join us?'

'To London?' says Foxy Loxy. 'Well, you're going the wrong way. That isn't the road to London. You must go this way. Follow me.'

So Chicken Licken, Henny Penny, Ducky Lucky and Goosey

- 1 What pets are popular in your country?
- 2 Where do people go to see animals?
- 3 What large wild animals are there?
- 4 What do people do to protect animals?
- 5 What pests are there?

4 A lot of wild animals are in danger, because their homes are disappearing, so people try to protect them. For example, you can't knock down an old building if bats or owls live there. Sometimes the government wants to build a new road, but local people stop it because some rare frogs or butterflies live there. A lot of people put out food in their gardens for wild birds, and for hedgehogs, too.

are popular. Some are pests. People don't like mice or rats in their houses, of course, and pigeons are a problem in town centres. There are a lot of foxes in towns and cities, too. At night they come out and look for food in rubbish from homes

Animals in Britain

People in Britain usually like animals. A lot of families have got a pet. Dogs, cats, hamsters, rabbits, guinea pigs, fish and budgerigars (budgies) are all popular pets. There are a lot of programmes about animals on TV, too.

There aren't a lot of large wild animals in Britain. There aren't any wolves or bears, but there are deer and wild pigs. There are eagles in Scotland, too. And in the southwest of England you can see wild horses. Sometimes, animals from other countries escape from zoos and homes. So there are wallabies (small kangaroos) in some parts of Britain, and you can sometimes see parrots in gardens and parks. Some people even think that there are panthers in Britain.

| tigers | | | | |

- c Add some more names of animals to the table.
- 3 What is unusual about these animals?

turtles whales and dolphins penguins bats

- 4 Answer the questions.
 - 1 How do mammals feed their babies?
 - 2 Why do reptiles normally live in warm countries?
 - 3 How do feathers help birds?
 - 4 Why can't fish live on land?
 - 5 Where can't amphibians live?

There are five different types of animals with backbones (vertebrates).

1 MAMMALS

Mammals are warm-blooded. They control the temperature of their body. They usually have hair or fur on their bodies and they produce milk for their babies. Horses, tigers, squirrels and mice are all mammals. We're mammals, too.

2 REPTILES

Reptiles are cold-blooded. They can't control the temperature of their body, so they don't normally live in very cold parts of the world. Snakes, lizards and crocodiles are all reptiles. Reptiles don't produce milk. They lay eggs. They must lay their eggs on land. Some reptiles, like turtles, live in water, but they must come onto land to lay their eggs.

3 BIRDS

Birds lay eggs, too, but they aren't cold-blooded. Birds have got feathers to keep them warm. Feathers also help birds to fly. Not all birds can fly. Some birds are too big and heavy, but they can usually run very fast instead. Penguins are birds, too. They can't fly, but they are good swimmers. The only other vertebrates that can fly are bats. They aren't birds. They're mammals.

4 FISH

Fish are cold-blooded and they lay eggs. Some fish, like sharks, live in the sea. Other fish, like carp, live in lakes and rivers. Fish are the only vertebrates that don't breathe air. Whales and dolphins live in the sea, too, but they aren't fish. They're mammals. They produce milk and they breathe air.

5 AMPHIBIANS

These animals can live in fresh (not sea) water and on land. They are cold-blooded and lay eggs, like reptiles, but they can't live all the time on land, and they must lay their eggs in water. Frogs are amphibians.

Which of the words from exercise 1 does Conor mention?

We were on holiday in July. We travelled to Spain by plane. We landed at the airport in Malaga. A man checked our passports and then we waited for our luggage. Soon the bags and suitcases started to arrive. Mum and Dad's bag was first. Then my sister, Clare, shouted: 'There's our suitcase!' We didn't check the label. We just grabbed it and then followed Mum and Dad with all of our luggage on a trolley. When we arrived at our hotel, we started to unpack. Mum and Dad opened their bag and Clare tried to open our suitcase. 'Is this the right key?' she asked. 'I can't open it.' Then we looked at the name on the label. It wasn't our suitcase! Mum phoned the airport. Our bag was still there. There was a very angry man there, too. Dad wasn't happy, because we needed a taxi to take the other passenger's suitcase back to the airport and collect our suitcase.

TRAVEL

- 1 Today you can travel from one side of the world to the other in one day. Travel in the past was dangerous and journeys took months or even years. At first people walked everywhere. Then, over 10,000 years ago they started to use boats, and, about 4,000 years ago, they started to use animals, such as horses, camels or elephants. After that things didn't change until the nineteenth century, when people invented new forms of transport.
- 2 In 1817 Baron von Drais made the first bicycle in Germany. It was a heavy, wooden bike with no pedals. You pushed it with your feet. Later bikes had pedals, but some of them, like the Penny Farthing, with its large front wheel, were very dangerous.
- 3 In 1885 Karl Friedrich Benz made the first car and Gottlieb Daimler designed the first motorcycle. Early motor vehicles were very expensive and only rich people could buy them. Henry Ford changed that. In 1908 he started to build good, cheap cars, like the Model T, in his factory in the USA. Soon ordinary people had their own car.

- 4 Only ten years after the first car, the first motor bus appeared. People called it an 'omnibus' (This means 'for everybody' in Latin.) or 'bus' for short.
- 5 The bus wasn't the first form of motor transport 'for everybody'. That was the train. George Stephenson opened the first railway between Liverpool and Manchester in 1830. He built the first train, too. It was called Rocket and it could travel at 45 kph. Soon people could travel hundreds of kilometres in just a few hours.
- 6 Today planes fly thousands of kilometres and they carry hundreds of passengers. The first aeroplane, however, carried only one person. The Wright Brothers' plane, Kitty Hawk, flew for the first time in the USA in 1903. It flew for just 12 seconds and travelled 36 metres!

2 (2.12) Read and listen to the story. Which of the things from exercise 1a did the tramp put in the soup?

One day a tramp came to an old woman's house and knocked on the door. 'Excuse me,' he said when she opened the door. 'I'm very hungry. Have you got anything to eat?' The old woman had a lot of food in the house, but she was very mean. 'Go away,' she said. 'I haven't got any food for you.' 'Oh,' said the tramp, 'well, have you got any water? You see, I've got a magic stone and I can make soup with it. But I need some water.' 'A magic stone, eh?' said the mean old woman. 'Yes, I've got some water.'

She fetched a big saucepan of water and put it on the cooker. The tramp took the stone out of his pocket and put it into the saucepan. After a while he tasted the soup. 'Mmm. It's very good,' he said. 'Have you got any salt and pepper?' The old woman fetched some salt and pepper. 'Mmm. That's better,' said the tramp. 'It really needs some vegetables. It's a pity you haven't got any vegetables.' 'Oh, I can find some vegetables,' said the old woman. She ran into the garden and brought back some potatoes, carrots, beans and a big

onion. The tramp cut up the vegetables and put them into the saucepan.

'Is it ready now?' asked the old woman. 'Almost,' said the tramp. 'It really needs some meat. It's a pity you haven't got any meat.' 'Oh, I can find some meat,' said the old woman. She ran to the cellar and came back with some ham and some sausages. The tramp put them into the saucepan.

'Right,' said the tramp after a while. 'I can't see the stone now, so the soup is ready. Bread is very good with stone soup. It's a pity you haven't got any bread.' 'Oh, I can find some bread,' said the woman. She went to the cupboard and fetched a loaf of bread, some butter and a bottle of wine. She put them on the table with some knives, forks and spoons.

'Mmm, this is delicious,' said the old woman when she tasted the soup. 'And you made it with just that magic stone.' The tramp smiled, picked up his knife and cut another slice of bread.

b Make a chart about meals in your country.

The first meal of the day is breakfast – usually between seven and eight o'clock. The traditional British breakfast is very big: bacon, eggs, sausages, tomatoes, mushrooms, baked beans and fried bread! But nowadays people don't usually cook a big breakfast every morning. They only have a cooked breakfast on Sundays or when they stay in a hotel.

Most people have a light breakfast. These are some typical things that people have for breakfast:

- cereal with milk
- fruit (grapefruit is popular)
- toast with jam, honey or marmalade
- yoghurt
- orange juice
- coffee or tea

- 3 a 2.22 Listen. When does each speaker have his / her meals?
 - b (2.22) Listen again. Find out.
 - 1 What does he / she usually have at each meal?
 - 2 What is his / her favourite meal?
- 4 Work with a partner. Ask and answer about the meals you eat.
 - 1 When do you have them?
 - 2 What do you eat?
 - 3 What do you like to eat for dinner?

Between twelve o'clock and two o'clock people have lunch. This is often a light meal of soup, sandwiches and / or a salad. Most children have their lunch at school. They can buy food at the school canteen, or they can take a packed lunch from home. This usually has sandwiches and maybe some fruit, yoghurt or salad.

The main meal of the day is dinner. People usually eat this between about six and seven o'clock in the evening.

A traditional dinner is meat or fish with potatoes and vegetables, but many people nowadays cook food from other countries. Lasagne, spaghetti bolognese, risotto and curry are popular. Some people are vegetarians.

After the main course, some people have dessert (also called 'pudding') – such as fruit, chocolate cake, or apple pie with ice-cream or custard.

In some parts of Britain, people have the main meal at midday and call it 'dinner'.

They call the light meal that they have in the afternoon or evening 'tea'. Some people also call the evening meal 'supper'. This can be a light meal or a main meal.

WORLD Star

We eat a lot of different kinds of food today.

Before the 16th century, people in Europe didn't have a lot of the things that we eat and drink every day.

At the end of the 15th century, people from Europe started to travel to other parts of the world. They went to America, Africa and Asia. They brought back a

lot of new kinds of food.

Chocolate came from Mexico. The Aztecs there drank chocolate with pepper! And today chicken with chocolate sauce is a popular meal in Mexico. The Spanish brought chocolate to Europe and they were the first to put sugar in it. Until the 1870s, chocolate was only a drink. The Swiss made the first bar of chocolate in 1876.

Tomatoes, peppers and avocados all came from Mexico, too. The Spanish took seeds back to Spain and started to grow the plants there. Soon they spread to other countries in Europe and then to other parts of the world.

The words tomato, chocolate and avocado all come from the old Aztec language.

Potatoes came from South America. Potatoes like cool, wet weather. They grew in the mountains of Peru.

Sweetcorn (or maize) came from North America. Turkeys came from North America, too. They didn't come from Turkey!

Coffee came from Africa. The Turks took it to Turkey and then to Europe.

Tea came from China in the 17th century. At first it was very expensive and only rich people drank it, but in the 19th century the British started to grow tea in India. They produced a lot, so it was cheap and everybody drank it.

The weatherin Britair

eople in Britain talk a lot about the weather. This is because the weather changes a lot. When people meet, they say things like: 'It's nice today, isn't it?' or: 'It's a bit chilly.'

People often think that Britain has got a wet climate. In fact, some parts of Britain are very dry and sunny. London, for example, is drier than Rome, Sydney or New York. But some parts of Britain get a lot of rain. The west is the wettest part, because it's closer to the Atlantic Ocean. As clouds from the Atlantic Ocean move across the country, they drop most of their rain on the hills and mountains in the west. So the eastern side of Britain is much drier. However, in winter the east is often the coldest part, because it's closer to the snow and ice in Scandinavia and Eastern Europe.

In spring the weather starts to get warmer. You see lambs in the fields, as well as spring flowers, like daffodils and bluebells. The beginning of March is often very windy. An old saying is: 'March comes in like a lion and goes out like a lamb.' April is famous for April showers. It rains, then it's sunny and then it rains again.

The weather in summer is usually warm. It's the time for school sports days, barbecues in the garden and holidays. The days are longest in the summer and in the north of Scotland it never gets really dark. A lot of towns and villages have a fête (a small, local festival) with sports and games for the children. For some people summer isn't a good time, because they get hay fever, and older students have their school-leaving exams.

Autumn usually starts with fine weather. In September people pick blackberries and it's the time for apples, too. Autumn is a very beautiful season, as the leaves turn yellow and red, before they fall. However, late autumn is often the stormiest part of the year.

The weather in winter is usually cool and wet. It's often foggy and frosty, too. It doesn't snow a lot in Britain, so when it snows, it causes travel problems. Roads, railways and airports are closed. Schools often close, too, so the children get an extra holiday.

- 7 the largest state in the USA
- 8 the highest mountain in North America

THE USA

THE UNITED STATES OF AMERICA is the fourth largest country in the world. It's bigger than the whole of Europe, but it isn't the largest country in North America. That's Canada. There are five time zones in the USA. So, when it's twelve o'clock in New York, it's

only seven o'clock in Hawaii. The third longest river in the world is in the USA. It's the Mississippi-Missouri River. The USA is the richest country in the world. It produces more food, iron, cars, aeroplanes, books, music and TV programmes than any other country. The USA has a population of about 300 million people. Most of them live in cities. The largest city in the USA is New York. About eight

- 2 the longest river
- 3 the highest mountain

million people live there. The second largest city is Los Angeles in California and the third largest is Chicago.

There are fifty states in the United States. Some of the eastern states, like Rhode Island and Delaware, are quite small. Rhode Island is, in fact, the smallest state. Others, like Texas, California and Alaska, are bigger than a lot of countries. Alaska is the largest state. It's also got the highest mountain in North America - Mount McKinley. Each state has got its own government and its own capital city. The federal capital for the whole of the USA is Washington DC. The US President lives there, in the White House. The flag of the USA is called the 'Stars and Stripes'. On the flag there is one star for each of the fifty states. The thirteen stripes are for the original thirteen states. These states formed the USA in 1776. The first settlers in the USA came from Britain, but now the USA has people from all over the world - from Europe, Asia, Africa and South America.

Getting information

1 Make a project about your country. I used the Internet to find things for my project.

3 I visited tourism websites for different parts of the country. I got some pictures of the most interesting places.

2 I downloaded a map and I got some facts and information from the Internet. I didn't just copy the information, of course. I wrote it in my own words.

SEARCH | United Kingdom

4 I typed 'Climate' into the search engine and got lots of information about the weather in different parts of the country.

5 I used my computer to get information, but I presented my project on a poster. I put the map in the middle and then put the information and pictures around it. It was easier to do this on a poster.

Doctor X

Justin Time opened his eyes slowly. He was on a bed in a strange room. The bed was very hard. Chelsea was there, too. She was very sad.

'Are you all right?' she asked quietly.

'It doesn't matter. You're both going to die here.' It was Justin's old enemy Dr X. She laughed horribly. 'I've got the computer now. So goodbye, Mr Time.'

Dr X left the room and the guard locked the door.

'We must stop her,' said Justin. 'With that computer she can control all the world's satellites.'

'I think we can escape easily,' whispered Chelsea. 'That guard is very slow. Listen.'

'That's a good idea,'said Justin. Then he shouted very loudly.'Oh, my stomach! Help! Help!'

The guard rushed into the room. 'What's all that horrible noise?' he said. Chelsea was by the door. She threw the blanket over the guard's head, while Justin quickly grabbed the keys from the guard's belt. They locked the guard in the room and ran outside.

'You did that very well,' said Justin.

'Oh, it was easy, said Chelsea.

'Well, can you run fast, too?'he said, and they ran to the harbour.

'Look,' said Justin. 'That's Dr X's boat. She's going to take the computer to her secret island. Come on.' They got into the boat and hid behind the seats. Soon Dr X arrived. She carefully put a briefcase on the seat and started the engine.

The boat was very fast. When they were near the island, Dr X opened the briefcase.

'With this computer I'm going to control the world,' she said. Suddenly, Justin jumped up and took the briefcase.

'Give that to me,'said Dr X. She grabbed the briefcase and pulled hard. But the briefcase was open and the computer fell into the water.

'Aren't you going to jump in and get it, Dr X?' asked Justin.

'I can't swim!' she said sadly, as the computer slowly sank to the bottom of the sea.

'The world is safe again now,'said Justin. While he watched Dr X, Chelsea took the boat safely back to the harbour.

5 Write about some famous film characters in your country.

- 2 Who created them?
- 3 What films do they appear in?
- 4 Which character is your favourite?

1 JAMES BOND

One of the most famous characters in British films is the secret agent, James Bond (007). Ian Fleming created the character, He wrote the first James Bond book in 1952. Ten years later, the first James Bond film appeared. Dr No starred Sean Connery as James Bond. In 2006, Daniel Craig became the sixth James Bond in Casino Royale.

2 SHERLOCK HOLMES

Sherlock Holmes is the most famous detective in the world. Sir Arthur Conan Doyle created him in 1887 in a book called A Study in Scarlet. Holmes and his assistant, Dr Watson, appeared in sixty stories. Between 1900 and 2012 Sherlock Holmes appeared in 211 films — more than any other character. There's a TV series called Sherlock, too, with Sherlock Holmes as a modern detective.

3 HARRY POTTER

Media studies: make your own film

1 3.11 Read and listen to the text. Match these headings to the correct paragraphs.

- a What is your film going to be about?
- b What do you have to do after filming?
- c What equipment do you need?
- d What are you going to do with your film?
- e Who do you need?
- f Where are you going to film?

2 Label the picture with these words.

- a a camcorder
- f the director
- b a microphone
- g the cameraperson
- c a tripod
- h the soundperson
- d an actor
- i the script

3 Is it a good idea or a bad idea to do these things? Give reasons for your answers.

- 1 put the camera on a tripod
- 2 use a separate microphone
- 3 move the camera quickly
- 4 have long scenes
- 5 use animals
- 6 film indoors
- 7 film in a town
- 8 film in cloudy weather
- 9 film scenes only once
- 10 have a film premiere

4. Work in a group. Plan your own film.

So, you want to make a film. How do you do it?

1____ //////

You can make an excellent film with just a camcorder, but two other things can be useful. First, it isn't easy to hold a camcorder still, so you get much better pictures if you put it on a tripod. A microphone is also a good idea. A camcorder has got its own microphone, but you can put a separate microphone closer to people so that you only get their voices.

Tip: Don't move the camera quickly. People feel sick when they watch it.

Are you going to make an adventure film, a comedy, a horror film or a documentary? For any film it's a good idea to write a script.

Tip: Keep the scenes short. People get bored quickly if scenes are too long.

3_____ ///////

For a story you need actors and actresses. Then you need a director (That's probably you!) and a cameraperson. If you have a separate microphone, it's a good idea to have a soundperson, too.

Tip: Be careful with animals in your film. They don't always do what you want.

It's easier to film indoors, because you can control things. However, you have to think carefully about lighting. You don't usually have to think about lighting outdoors, but you have to think about noise, especially in a town. Tip: The best weather for a film is when it's dry but cloudy, because the light doesn't change.

5_____//////

You've got your film, now you have to edit it. You need a computer for this. Choose the best scenes and put them together. You can also add music and titles.

Tip: Try to film each scene two or three times. You can then choose the best scene.

When your film is ready, you can put it on the Internet or you can make copies for your friends and family.

Tip: Why not have a film premiere? Invite your friends and family to watch the film and meet 'the stars'.

The Little Fir Tree

(adapted from Hans Christian Andersen)

The Little Fir Tree stands in the forest. Sometimes children play there. 'What a nice little fir tree,' they say. But the Little Fir Tree

5 doesn't like that. 'I don't want to be a little tree,' she thinks. 'I want to be big.'

In autumn men chop down the large trees and take them away.

10 'Where do they go?' asks the Little Fir Tree.

People use the big trees to make ships, and the ships sail to other countries,' say the birds.

15 'Oh, those trees are lucky,' says the Little Fir Tree.

The birds say: 'Be happy here in the beautiful forest.'

But the Little Fir Tree doesn't 20 listen to them.

At Christmas the men come with their axes again. They take young trees this time.

'Take me,' says the Little Fir 25 Tree, but they never do. Winter turns to spring and then summer again.

Then, one Christmas the men chop down the Little Fir Tree.

30 They throw her into a cart with some other trees and take them to a big house. Later a man points and says: 'Take that tree into the house.'

35 Inside the house people put her into a pot. Then they hang decorations on her – red, blue, and silver. They put candles on her branches, a big gold star on

40 her head and presents around the pot.

The next day there are lots of people in the living room.

'What a beautiful Christmas 45 tree,' they say.

The Little Fir Tree feels very proud. 'I want to stay here forever,' she thinks.

But the next day two servants 50 come. They take the little tree to the attic and throw her into a dark corner.

'This isn't very nice,' she thinks.

Some mice are there, too. She 55 tells them about the forest with the birds and the flowers.

'What a beautiful place,' say the mice.

'Yes,' thinks the Little Fir Tree. 'It 60 is beautiful there and I want to go back.'

A few months later, people come into the attic and take the Little Fir Tree outside.

65 'Oh, they're taking me back to the forest,' she thinks.

But a boy says: 'Look at the ugly old Christmas tree. It's all dry and brown.'

70 Then the gardener takes his axe. He chops the tree into pieces and throws them on a fire.

And that is the end of the Little Fir Tree!

Why does the Pied Piper play his flute a second time?

f The Pied Piper says he can get rid of the rats.

Hamelin is in Germany. It's a rich town, but there's a problem – thousands of rats.

The people go to the Mayor.

'You must do something,' says a woman.

5 'They eat our food,' says a man. 'And they sleep in our beds!' says the woman.

The Mayor and the councillors go into the town hall. 'The people are angry,' says the Mayor. 'But what can we do?'

- 10 Someone knocks on the door. A strange man is standing outside. He's wearing red and yellow clothes with a tall hat. He's holding a flute. 'I'm the Pied Piper,' says the man, 'And I can get rid of the rats. But you must pay me one thousand guilders.'
- 15 'A thousand?' says the Mayor. 'You can have fifty thousand!'

'No, I only want one thousand,' says the Pied Piper.

He walks into the square and plays his flute. 'What's he doing?' says a man.

20 'Look!' says a woman. 'The rats are running out of all the buildings.'

'The piper's going to the river now,' says the man. 'And all the rats are following him,' says the woman. At the river, the Pied Piper stops.

25 'The rats are all jumping into the river,' says the man. 'Yes, they're all drowning,' says the woman.

Later at the town hall the Mayor says: "There aren't any rats in Hamelin now. We ...'

Then the door opens and the Pied Piper comes in.

30 'I want my money, please,' he says. 'One thousand guilders.'

'A thousand guilders? That's too much,' says the Mayor.

A thousand guilders,' says the Pied Piper. 'Or ...'

35 'Or what?' says the Mayor. 'You can't bring the rats back. Here's fifty guilders. Now go away!'

The Pied Piper walks into the square and he plays his flute again.

'Why is he playing his flute?' says a woman. 'There aren't any 40 rats now.'

'No,' says a man. 'But look. All the children are following him.'
'Oh no,' says the woman. 'Is he taking them to the river, too?'
'No, he isn't,' says the man. 'He's taking them to the mountain.
Stop, children, stop!'

45 But the children don't listen. Soon they reach the mountain. 'Look,' says the woman. 'A door is opening in the mountain and the children are following the Pied Piper through it.' The door in the mountain closes. Nobody ever sees the children or the Pied Piper again.

Long ago in Arabia there was a boy. His name was Aladdin. He lived with his mother. One day Aladdin saw the King's daughter. 'I want to marry her,' thought Aladdin. 'But I'm too poor.'

- 5 Later, a man came to Aladdin's house. I'm your Uncle Abanazer,' he said. He wasn't really Aladdin's uncle. He was a wicked magician. He took Aladdin to a cave. 'There's an old lamp in there,' said Abanazer. 'Bring it here. Take this ring. It can help you.'
- Aladdin went down into the cave. Tve got the lamp, Uncle, he shouted. 'Lift me out!'
 'Give me the lamp first!' said Abanazer.
 'No,' said Aladdin. 'Then stay there!' shouted Abanazer and he put a rock over the entrance.
- 15 It was cold in the cave. Aladdin rubbed his hands and the ring. A big blue genie appeared. 'I am the genie of the ring,' he said.'What do you want, Master?'

'I want to go home,' said Aladdin.

- 20 The next moment, Aladdin was at home. Where did you 45 get that dirty old lamp? said his mother. She took the lamp and rubbed it.
 - A big red genie appeared. 'I am the genie of the lamp,' he said. 'What do you want?'
- 25 'A big box of jewels,' said Aladdin. 'Abracadabra. Za za zoom!' said the genie. Aladdin's mother took the jewels to the King. 'My son wants to marry Princess Zadia,' she said. 'My daughter must marry a prince,' said the King.
- 30 When Aladdin heard this, he rubbed the lamp.
 'I want to be a prince in a golden palace,' he said to the genie.

'Abracadabra. Za za zoom!' said the genie.

Princess Zadia married Aladdin. But one day, when

- 5 Aladdin was out, Princess Zadia heard a pedlar in the street. 'New lamps for old!' he shouted.
 - 'Take Aladdin's old lamp to the pedlar and get a new lamp,' said Princess Zadia to a servant.
 - But the pedlar was really Abanazer. He rubbed the lamp.
- 40 'Take Aladdin's palace to my country,' said Abanazer. When he came home, Aladdin said: 'Where is my beautiful wife – and my palace?'
 - 'Where's my daughter?' said the King, and he threw Aladdin in prison.
- 45 It was cold in prison. Aladdin rubbed his hands. The genie of the ring appeared.
 - 'Take me to my wife,' said Aladdin.
 - 'Oh, Aladdin,' said Princess Zadia, when he appeared. 'Abanazer has got the lamp and he never leaves it.'
- Aladdin hid in the palace. When Abanazer went to bed, Aladdin took the lamp and rubbed it.
 - 'Throw Abanazer out of the window,' Aladdin said to the genie. 'Then take us home.'
 - 'Abracadabra. Za za zoom!' said the genie. In a flash,
- 55 Aladdin and Princess Zadia were home. They never saw the wicked magician again. And they lived happily ever after.

Ananse the Spider

A traditional African story

Once upon a time in Africa there was a spider, called Ananse. Ananse loved food, so he was very fat, and he had short, fat legs.

5 One day, he went past Rabbit's house. 'What are you cooking, Rabbit?' said Ananse.

'Vegetable soup,' said Rabbit.

10 'Well,' said Rabbit. 'It isn't ready yet, but sit down and wait for an hour and you can have some."

Ananse didn't want to stay at Rabbit's house. He always found jobs for Ananse 40 'I'm sorry, Monkey,' he said. 'I'm very 15 to do, so he said:

'I'm sorry, Rabbit, I can't wait, but I've got an idea.'

He spun a long piece of web and said: 'Tie one end of this web to your

20 saucepan, and I can tie the other end to my leg. When the meal is ready, pull the web. Then I can come and share your soup.'

So Rabbit tied the end of the web to his 25 saucepan. 'See you later, Ananse,' he said.

'Thank you, Rabbit,' said Ananse. 'Goodbye.'

Monkey tied it to her oven and Ananse tied the other end to another 45 one of his legs.

'Pull the web,' said Ananse. 'Then I can come and have a slice of your cake.' 'OK,' said Monkey.

Ananse walked on and saw more of his 50 friends. Soon he had a piece of web on each of his eight legs.

'That was a good idea,' he thought. Then he lay down in the sun and went to sleep. Suddenly, somebody pulled 55 one of the webs. 'Oh, it's Rabbit,' said Ananse. 'Good. His soup is always delicious.'

But then another web pulled one of his legs. Then another. Soon the 60 animals were pulling all the webs.

'Help. Help!' shouted Ananse. 'My poor legs!' The animals pulled and pulled. Finally, the webs broke and Ananse looked down at his legs. They weren't 65 short and fat now. They were very long and very thin.

So, after that, Ananse the spider had a fat body, but eight long, thin legs. And he never got any food that day!

Twelve Months

A traditional Slav legend

Once there was a widow. She had a daughter, Helen, and a stepdaughter, Marouckla. The widow hated Marouckla, because she was prettier than her own

5 daughter. Marouckla did all the hardest work on their farm and in the house. Helen did nothing.

One day in winter, Helen said:

'Marouckla, go and pick some flowers.'

- 10 'But, Sister,' said Marouckla. 'It's winter. There's snow in the fields."
 - 'Helen wants some flowers,' said her stepmother and she pushed Marouckla outside.
- 15 The poor girl was very cold. Then she saw a light on a mountain. She climbed the mountain. There she found a fire. There were twelve stones round it. Twelve men sat on the stones.
- 20 'Can I sit next to your fire, please?' said Marouckla.
 - 'Yes, child,' said one of the oldest men. His beard was as white as snow and he sat on the highest stone.
- 25 'Thank you,' said Marouckla.

25 'But how can I find Medusa?' asked Perseus. 'These shoes can take you to her,' said Hermes, and he gave Perseus some shoes with wings.

When Perseus reached Medusa's island, he put on the helmet, so that he was invisible. He looked

'Close your eyes, Mother. Don't look.'
