### **New friends**

Mark and Hanna are friends. They have a lot in common, and both went to the same school when they were very young. So why did they only become friends last month?

They were both born on 26th April. Mark was born in 1997 in London in the UK. Hanna was born in Amsterdam two years later. When Hanna was three, her family moved to the UK, to a house just ten minutes from Mark's home. They both went to Newbrook Primary School but they don't remember each other. Mark went to a different secondary school from Hanna.

After they finished secondary school, they each waited for a year before they went to university to study art. Mark worked in a restaurant to get some money and then travelled around Europe. Hanna went to Amsterdam and stayed with her aunt and uncle. Mark studied in London. Hanna went to Glasgow. They studied art for three years. Then, they both decided to stay at university for another year to become teachers. Mark finished university two years before Hanna. He got a job as an art teacher at a secondary school in London. Two years later, Hanna returned to London and got a job as an art teacher at an adult education college.

Today, Mark and Hanna both live in West London, in apartments that are on the fifth floor. Hanna lives alone, but Mark lives with a friend from university. They both enjoy going to museums and art galleries in their free time. In fact, they met at a museum. Last month, they went to a museum at the same time. Mark went with his friend Devon. Devon also knows Hanna because he's a friend of her cousin. And so, because of Devon, Mark and Hanna finally became friends!

# Travelling abroad: lost and (sometimes) found

Losing something on holiday is never fun. Here, four people tell us their stories about losing something abroad.

### **A** Darius

One morning, on holiday with my wife, I went down to the pool alone.

While I was swimming, I saw that my wedding ring wasn't on my finger.

It was in the water! I asked people around me to look for it but none of us could find it. I was afraid to tell my wife, but she was fine about it. She bought me a new ring when we got home.

#### B Alice

My family and I were staying at a house in Florida. One morning, I put my phone on top of the car while I was putting my youngest child in his car seat. Then I got into the car and we drove off. Later, I wanted to take photos, but I couldn't find my phone anywhere. I looked in every bag, but it wasn't there! We found it when my husband drove over it. He was parking the car in front of our house and he didn't see it. It was completely broken. I was very upset about it at the time, but we can all laugh about it now.

### **C** Lucas

I was in Mexico with some friends.

We had a fantastic week in Tijuana.

On our last day, we left the hotel and got in the car to go home.

When we got to security at the border between Mexico and the USA, I couldn't find my passport. We went back to the hotel, but it wasn't there. I couldn't believe it! My friends had jobs to go to so they went home. I went to the US Embassy in Tijuana to get a new passport. It took two days. I wasn't pleased, but I felt worse when I got home and found my lost passport at the bottom of my bag.

#### Emi

I was so excited when I landed in Paris that I got off the plane very quickly. In the arrivals hall, I saw that my purse wasn't in my bag. It was on my seat on the plane! I went to the airline desk and told them the problem. After an hour, someone brought me my purse. I was very pleased!

# What to do when you're stressed

Most days, we find ourselves in a stressful situation. Maybe we're late for work and every traffic light on the road turns red. Or we have a question about our bank account, but we can't seem to speak to a real person when we call. These are not huge problems, but when lots of things like this happen together, they can feel huge and we become really stressed. So, what should we do?

When we're in a really stressful situation, we can walk away and go to a different place. It's not always possible, of course. We can't always walk out of a business meeting or a university lecture. But these days, we use our phones or computers a lot to communicate with people for work or with friends and family. When the stress is coming from our phones and computers – maybe someone keeps emailing us or calling us or we can't get an app to work – we can switch them off. That's similar to leaving a room.

Regular exercise is good for stress. This doesn't mean we have to get up and run fast and far. A walk is enough to help us clear our heads. It's also really good for our general health, too, so we should all make time for a daily walk in our lives. We should also try to do something we enjoy every day. Baking? Video games? Drawing? It doesn't matter what it is. When we focus on something we like, we forget about the time. That's often good for us. It can help to switch off some of our stress.

Perhaps the most important thing is to talk to other people about how we feel. When we hold our stress inside, it can make us feel worse. Talk to friends, family, a doctor or join a club and meet new people and talk to them.

Stress is a part of life, but there are different ways to manage it. We just need to find what works for us.

| Tortoises can make great pets, because they're quiet and don't need a lot of care. They don't need to go out for a walk in 1 mornings and in 2 evenings and you don't need to feed them very often. Just give them 3 plants that they can eat when they want. Tortoises, like 4 other pets, help you to feel better when you're stressed. But there are some important things to think about. First, think about 5 type of tortoise you want to have. Red-footed tortoises from 5 South America are very popular and make good pets, and so do Indian Star tortoises.  Then, you need to think about the tortoise's home. Tortoises need fresh air and 7 sunlight. They need 8 water, plants and interesting things to look at and touch, like rocks. Also, 9 tortoises like to make holes in 10 ground and try to go under things. All of this means that they should be outside as much as possible. |

It's the 1st of the month and time for this month's e-book offer. Choose one of the four amazing books below and get it free.

#### 1 The money bag

All Alyssa wanted was a holiday where she could relax and forget about her boring job. But after one mistake at the airport, she now has a suitcase full of money that isn't hers and several people are watching her. A message in her hotel room tells her not to take the money to the police. Now her room isn't safe and she needs to run and hide. Can the man she met at a restaurant help her? Can she get the money back to the owner and stay alive?

#### 2 Searching for the light

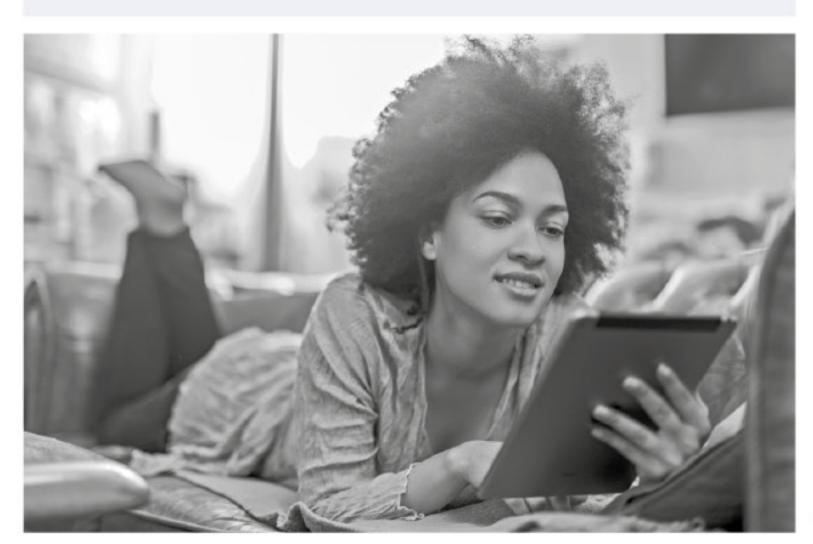

Life for 17-year-old Theo isn't easy. He lives on a farm in the middle of nowhere. His parents only want him there because he works hard. His school friends only want to know him because he helps them with their homework. He's lonely. When he sees an unusual light in the sky one morning, he follows it into the forest. There, he finds a message. He replies. The lights appear in the sky several more times and so do the messages. Theo has to decide whether to continue his plan to leave the farm or stay and find out about the strange lights.

#### 3 Starting again

Maribel decides it's time do something about her life. Alone, in a job she doesn't enjoy and living in an expensive city flat, she decides to move away to a house in a small village by the sea, where she doesn't know anyone. It's the perfect place for starting again and spending more time with her favourite hobby of painting. She soon realises that she made a great decision.

#### 4 Discovering the past

It's Levi Stone's 30th birthday party and the Stone family are all together for the first time in ten years – his parents, his brothers and sisters and his cousins. When a snow storm comes, the family has to stay in the same house for a week. The family can no longer hide from each other's questions. Each person has secrets that no one else knows about – secrets that will change their lives forever.

## The taste of home

There's one dish that always makes me think of home:
Lancashire hotpot. Lancashire is an area in the north
west of England, close to Manchester. In the 1800s, there
were a lot of factories there and many people in the area
worked at them. Their work wasn't easy. They worked
long days and had little time off. The work was hard and
often dirty. When they got home, they were tired and
wanted a good meal, but they didn't have the time or
energy to make one. So they made hotpot. They could put
the food in a pot in the oven in the morning and leave it
to cook slowly on a low heat all day. It was ready to eat by
the end of the day. Of course, many of those people had
no oven in their homes, so they probably took it to the
local baker to cook.

Lancashire hotpot is a dish with meat, onions, and carrots and slices of potato on the top. There are other things in it too, like salt, to give it some taste, but those are the main ingredients. It might not sound very tasty to you, but to me it's the most wonderful food in the world. Everyone makes it a bit differently, so there's no single recipe. I think my family's recipe is the best. When I was growing up, my parents often made it for Sunday lunch and my brothers and sisters all loved it. When I taste it now, I think of those Sundays and feel that life was much easier then. But of course, it wasn't without problems. We had some difficult times, but those times when we were together enjoying a hotpot seemed to be some of the best ones. That's why I love making it for my children now. The thing is, they prefer pizza.

### Look what I found!

1

In 2019, Scott Amos was in California, in the US, visiting the house he grew up in. He was looking in some boxes when he found an old video game called Kid Icarus. It was probably a gift to him when he was young, but no one in the family remembered it. The 1987 video game wasn't open and it looked perfect. Scott talked to someone who knew a lot about video games, and found out that there were only ten games in perfect condition in the world. The game originally cost \$38.45. Scott sold it for \$9,000 and used the money for a family trip.

2

In 2014, the owners of a house in Toulouse, France, found some old clothes in a room at the top of the house. They also found a painting there. They thought the painting might be valuable, so they showed it to someone who knew about art. After five years, the owners learnt that the painting was by the famous Italian artist Caravaggio and it was over 400 years old. Not everyone was sure the painting was by Caravaggio, but it was expected to sell for around \$171 million. Someone bought it in 2019, but we don't know who or how much they paid.

3

In 2009, British man Terry Herbert went out with a cheap, old metal detector – a machine for finding metal under the ground – to a farmer's field. After walking just 73 metres, the machine made a noise. Terry made a hole in the ground and he found something gold. He made the hole bigger until, after a few days, he had 244 gold and silver objects. Later, he had more than 4,000 things, all over 1,400 years old. It's the largest number of gold and silver items from that time. Two museums bought them for £3 million. Herbert and the farmer shared the money.

4

In the 1980s, a British woman bought an old ring for £10. She didn't know it had a real diamond on it and many years later, decided to put it in the rubbish. Her neighbour saw it and asked the woman to check if the ring was valuable or not. The woman did and discovered the diamond was real. The ring later sold for a huge £656,750.

#### B Are the statements True (T) or False (F)?

## How to ...

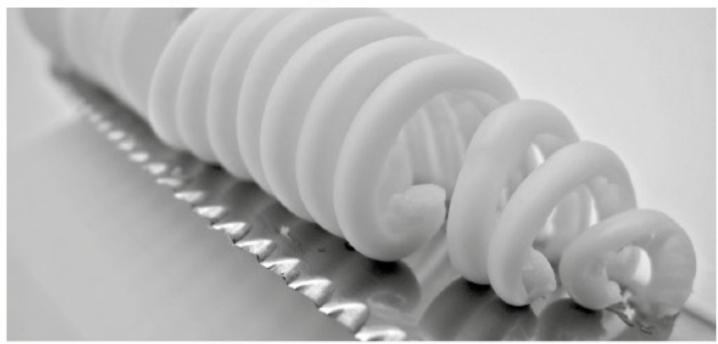

#### talk about a product

2 A 5.06 | Listen to someone talking about a product. What's the product?

| <b>a</b> a knife | <b>b</b> a notebook | <b>c</b> a wallet |
|------------------|---------------------|-------------------|
|------------------|---------------------|-------------------|

**B** 5.06 | Complete the talk with one word in each gap. Then listen and check.

| We all want delicious butter with jam in the mornings,       |
|--|
| but lots of 1 find it difficult to put cold, hard            |
| butter on our bread. Well, <sup>2</sup> the answer. It's     |
| the Better Butter knife. It's light and comfortable to       |
| hold. It's 3 small holes in it, so it picks up               |
| the butter really easily and spreads it across the bread     |
| perfectly. But that's not 4 It can also cut                  |
| slices of cheese, so it's a butter knife and a cheese        |
| knife. Another good 5 about this butter                      |

### **Team sports**

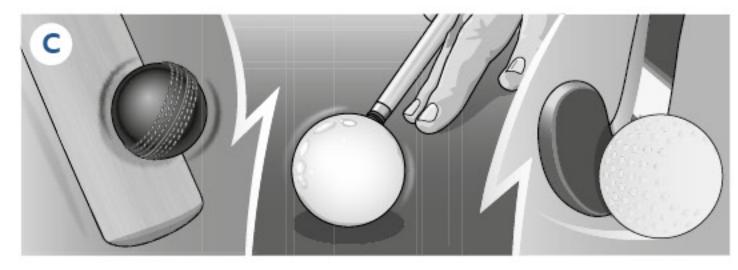

Do you enjoy team sports? Do you play baseball, cricket or hockey?

If so, we'd like to hear from you!

Which is the correct picture for the text?

**6 A** Read the review of an exercise app. Choose the correct word to complete the summary.

The writer thinks people should / shouldn't try it.

- **B** Read the review again. Choose the opinions (1–8) that the writer gives.
  - 1 Some free apps are better than this app.
  - 2 It's good that people can try the app for free.
  - **3** The cost of the app is fine.
  - **4** You feel like you're at a real-life exercise class.
  - **5** The app is good for people with busy lives.
  - 6 There are only a few types of exercise class.
  - 7 The information about healthy eating isn't useful.
  - 8 The app is for people who want to exercise hard.

# C Read the review again. Are the statements True (T) or False (F)?

- 1 The app is free for the first month.
- 2 All the exercises classes are live.
- 3 The app has lots of different exercise classes.
- 4 Exercise classes are no longer than an hour.
- **5** It's hard to find the right exercise classes for you.
- 6 On your phone, you can do an exercise class from the app or listen to your own music, but not both.

### FITNESS@pp

Health apps are very popular and new ones come out all the time. FITNESS@pp is one of those new apps. Its purpose is to help people do exercise and live a healthy life. So, why should you get the app?

Well, firstly, it's free for fourteen days, so you can try it before you pay the full £15 monthly cost. I think this is important because it stops some people from wasting money. There are cheaper apps, but FITNESS@pp has a lot to offer and the cost seems good to me.

There are live exercises classes every day – fifteen of them. These are great because you can feel part of a real class when you're actually at home. There are also hundreds of video lessons to choose from. It means that busy people like me can exercise at any time of the day.

There are many different types of classes, from tenminute lessons to sixty-minute ones, from yoga to t'ai chi to using an exercise bike. Some are easy, but many of them are quite hard. This app probably isn't for people who just want easy exercise.

When you start using the app, you answer some questions and the app suggests some exercise classes for you. This helps you to find the right classes easily. The app sends you a message thirty minutes before a live class, so you remember it's happening. It also sends you 'well done' messages after a class, which made me feel good and like I wanted to do more! The app is mostly easy to use.

As well as exercise classes, there is also help with choosing healthy food to eat. The information comes from doctors and other people who understand health well. The advice is good and there are some great meal ideas. I like the fact that the app helps me to stay healthy and also to find food I can enjoy.

The app isn't perfect. I can't play my own music on my phone and use the app at the same time, but there's lots to enjoy. I think anyone interested in exercise should give the fourteen free days a try.

### Teenage pilots fly around the world

Many teenagers dream of getting on a plane and travelling to another country. But what must it be like for a teenager to fly alone around the world in their own plane? That's what Mack and Zara Rutherford have done. The brother and sister are Belgian but have British parents. They are two of the youngest people to fly solo around the world in a light aeroplane. Zara, aged nineteen, was first. She left Belgium in August 2021 and returned in January 2022. Her trip involved sixty stops and took two months longer than she wanted because of stormy weather. She spent a month in the USA, where she used her time to apply for university. She slept in an airport in Indonesia for two days because she couldn't leave the airport. She had problems with her plane in New Mexico in the USA and Singapore, but she was most worried about flying across some of the coldest parts of the world, because her plane might stop working. When Zara arrived back in Belgium, four planes from the Belgian air force were there to meet her.

Zara's seventeen-year-old brother, Mack, left Sofia in Bulgaria in March 2022 and landed in the same place in August. He travelled across fifty-two countries and two oceans. He had problems with the hot weather in Dubai and closed airports in India. He also slept on an island in the Pacific where nobody lives. He enjoyed flying over national parks in Kenya and buildings in Manhattan, New York.

Mack spoke to his parents each day and got advice from his sister, too. Flying is important in the Rutherford family. Mack's parents are both pilots and his great-great grandmother was one of the first women in South Africa to fly a plane. Now that Mack is home, he isn't sure what he wants to do for a career, but he knows he wants to continue flying.

Or do you prefer to have ²\_\_\_\_\_ at a restaurant, or see ³\_\_\_\_ at the cinema? Whether you stay in or go out, there are always fun things to do. For example, you can stay at home and see ⁴\_\_\_\_\_ . Yes, you can watch your favourite band using virtual reality (VR). Or if you prefer sport, you can watch ⁵\_\_\_\_ or any other sport using VR. You could also have 6\_\_\_\_\_ to your home and do an online escape room together. That's a game where you have sixty minutes to find clues and solve problems to win.

If you prefer to go out, you could go 7\_\_\_\_\_ to see a play. If you want a quieter time, you could find

see a play. If you want a quieter time, you could find an unusual place to go 8\_\_\_\_\_\_, like a café in a treehouse!

### READING

### **5** A Read the article and choose the main topic (a-c).

- a How delivery riders can stay safe in their jobs
- **b** A day in the life of a fast-food delivery rider
- c The advantages and disadvantages of being a delivery rider

# What's it like to deliver someone else's takeaway?

You pick up your phone, open the app, select your order and wait for your takeaway to arrive. But do you ever think about the life of the delivery person who brings it? What is it like to deliver food?

I'm a university student and also a delivery rider. Between Friday and Sunday evening, I cycle up to 150 km delivering food to people in my area. It can be a difficult job, and dangerous, but it can also be fun. You need to be fit and healthy. It's not always about cycling as quickly as possible. When you're carrying soup or hot coffee, it's not a good idea to go very fast. You need to think about staying safe on the roads and in traffic, too. So, it's about good cycling and safety skills, not speed. You need to follow directions, so if you can't use a map app then it might not be the job for you. It's also good to know the area, because then you know all the shorter routes to take and that saves you time. More time means more opportunities to deliver more food. And that means more pay.

The delivery company pays me for every order I take from a restaurant or café to a customer. It doesn't pay me for every hour I work. This is both good and bad. On the positive side, I can decide when I work and it is possible to make quite good money. On the negative side, I don't get paid well when it's quiet and there aren't many orders. That's why I work at the weekends. It's always busy. Another negative is that I don't get sick pay. If I feel unwell and don't work, I don't get paid.

However, there are many things I like about my Friday-to-Sunday job. It's wonderful to be outdoors and not at a desk or in a hot kitchen, for example. It's also quite easy. I just use the company's app on my phone to see what orders I have to deliver. I've made some friends with the other riders and I know they'll help me when I need to repair my bike. I chat to restaurant workers and customers, but these are short, pleasant conversations. For the rest of the time, I can enjoy the sun on my face and the fresh air. (Of course, sometimes there's rain pouring down my back, but let's not talk about that!)

Being a delivery rider isn't for everyone, but it works for me because I love working outdoors and being on my bike for a few days each week. I get to do my hobby while working.

Mobile phone technology is 1 (get / good) all the time, so each year phones are <sup>2</sup> (become / small) and thinner and so on. However, the 3\_\_\_\_\_(speed / change) is slower than it was. Yes, phones are still 4 (improve), but the changes are smaller. And prices aren't 5 (go / down). They're not even 6 (stay / same). The prices of new phones are (increase) quite a lot. This means that we're paying a higher price for smaller improvements.

### The future use of social robots

'Social robots' are robots which can talk to us and talk to each other. Here's where we might see them in the future.

### **Business**

When you go to an event, a shop or a shopping centre, a social robot might welcome you and give you information. It'll also answer any questions you might have.

### Healthcare

Social robots can help busy hospital doctors and nurses by taking a patient's information when they first arrive at the hospital. For example, the robots can find out about a patient's medical history. They can chat to the patients to help them feel less worried.

### **Education**

Already, social robots are working with children who have learning difficulties. The robots teach the children how to talk to other people. Research tells us the robots have been very successful doing this, so we will probably see many more of these types of robots in the future.

### Friendships

Social robots could play a big part in the lives of some people, particularly older people who live alone and feel lonely. The robots will give older people someone to talk to. Imagine having long conversations about life with the digital assistant on your phone. It'll be similar to this.

Will we all have a social robot friend? Maybe not, but we will definitely see more social robots in the future.

### C Complete the sentences with one or two words from the articles.

| 1 | A social robot might take you to the | you  |
|---|--------------------------------------|------|
|   | want in a building.                  | 3700 |

- **2** A social robot might visitors to a shop.
- **3** A social robot can find out about a person's when they arrive at a hospital.
- **4** Social robots will talk to patients so they feel when they're in hospital.
- **5** Social robots can stop patients from feeling at a hospital.
- **6** Social robots can help children with learning difficulties to \_\_\_\_\_\_ people.
- **7** Social robots can help children with their \_\_\_\_\_\_.
- 8 Social robots can teach visitors about things they see in \_\_\_\_\_.
- **9** A social robot can help older people to feel less
- **10** Twenty percent of young children believe that their will be a robot.

### B The future use of social robots

'Social robots' are robots which can talk to us and talk to each other. Here's where we might see them in the future.

### Business

When you enter an office building, you might not see a person at the reception desk. You might see a social robot instead. The robot will welcome you, give you information about the company and answer your questions. It might even show you to the room you need.

### Healthcare

Medical care isn't just about finding out what's wrong with a patient and giving them the right medicine. It's about helping the patient to stay positive in difficult times. Social robots could talk to patients during their stay in hospital. They could tell stories and jokes, to help the patients stay calm.

### Education

Social robots can speak lots of different languages, which means they can work with children around the world. They can be a tutor for children who need extra help with their studies. They can also work in museums, teaching visitors – young and old – about the things there.

### Friendships

In a study of 1,246 children aged 5–11, twenty percent of them said they think they'll have a robot best friend

in the future. Social robots can play games with children and help to look after them.

Will we all have a social robot friend?
Maybe not, but we will definitely see more social robots in the future.

Hi!

I'm trying to make some life decisions and need your help! Here are the problems.

- My job has become boring. It's too easy.
- I really want to move to the city, but flats are expensive.
- I have problems sleeping. I always feel tired.
- I never have the energy for exercise and I don't feel very fit.
- My car is old and keeps breaking down. I can't afford a new one.

I feel stressed all the time, because of these problems! What's your advice?

Luke

Hi Luke,

Esma

| It's great that you want to make some changes in your      |
|--|
| life. It sounds like you need a new job. If you            |
| 1 (look) at the websites for local                         |
| newspapers, you <sup>2</sup> (see) job advertisements      |
| there. And if you <sup>3</sup> (talk) to your cousin Macy, |
| she 4(help) you find something. She knows a                |
| lot of businesses in the city.                             |
| Have you thought about sharing a flat in the city with     |
| someone else? It 5 (be) cheaper if you                     |
| 6 (share) the rent. Also, you 7 (not /                     |
| need) a car if you <sup>8</sup> (move) into the city.      |
| I think you can't sleep because you're stressed about      |
| your job, flat and car. You <sup>9</sup> (feel) more       |
| relaxed if you 10 (change) these things. If                |
| you <sup>11</sup> (feel) more relaxed, you                 |
| 12 (sleep) better. And if you 13                           |
| (sleep) better, you 14 (have) more energy for              |
| exercise. So, spend time on finding a job and flat.        |
| I hope that helps! Good luck.                              |

### WRITING

### an advice post

7 A Read the problems (A and B). Then read the advice from voxpop22. Which problem is the advice for?

### Kenny

I started work at my company three years ago. I am a very good worker and always do my best. However, the problem is that people don't seem to understand how hard I work. People who came to the company after me are now in higher positions and making more money than me. Should I stop working so hard? Or should I talk to someone about this?

### Bluebell

My company has offered me my dream job. It's exactly what I want to do for more money than I get now. But I have to move to a city abroad. I'm very close to my family here and I'll miss them a lot. I haven't told them yet. What should I do?

### voxpop22

## A different way of thinking

It's not always easy to think of ways to solve problems, but sometimes it can help if you think in a different way. Think of ways to make the problem worse, not better. So, for example, think about how to increase air and water 1\_\_\_\_\_, not stop it.

### READING

# 2 A Read the article about restaurants in the future. Which topics (1–8) does it mention?

1 prices of meals
2 technology
3 restaurant staff
4 food recycling
5 size of restaurants
6 information on menus
7 cost of energy
8 restaurant meals

### **B** Are the statements True (T) or False (F)?

- 1 Ryan is sure about his predictions for restaurants.
- 2 He says that in future everyone will use their phones to order food.
- 3 Restaurant staff will need to learn new things.
- 4 Ryan thinks that people will prefer to eat at a restaurant than at home.
- **5** He says that in the future, we'll choose a meal for health reasons.
- 6 Ryan thinks that restaurants will offer more food from around the world.
- 7 He says the fruit of the 'false banana' plant can make a tasty meal.
- 8 Ryan suggests we'll eat more insects in the future.

### The future of restaurants

What will restaurants be like in twenty years' time? Ryan Whitely makes some predictions.

Imagine walking into a restaurant of the future. What do you see? Robots taking your order and serving you food? A menu with only food pills to try? Or maybe there'll be no restaurants at all?

It's hard to know exactly what a restaurant in 2050 will be like, but we can try and make some guesses. Firstly, technology will be important. Customers will arrive, use their phone to see the menu and then use the phone to order and pay for the food. In some places, that's already what happens. In restaurant kitchens, computer technology will cook the food and keep the kitchen clean. This means restaurants won't need so many staff and the staff they have will need new skills – technology skills.

In the future, it's possible that restaurants will be smaller, because more people will prefer to eat takeaway food at home. So, all restaurants will offer both food to eat in and food to take out. The menus might look a little different. These days, you can often find information about the meals on the menu, e.g. Is the meal vegetarian? How many calories are in the meal? In the future, there might be more information about what's in the meals and which meal is best for us. This is because we'll all have technology to tell us what our bodies need. We'll then choose a meal to match that.

The menu will probably have 'green' information, too. What effect does the meal have on the environment? Restaurants will probably sell more local food because it's better for the environment. We won't be able to buy food from the other side of the world. This might mean less choice.

Our changing weather will change the menus, too. Some things will become more difficult to grow, which means we might be eating different things. Some parts of the world might see more of the 'false banana' in meals – a plant similar to a banana plant that can create a delicious, high-calorie meal. Not with its fruit, which you can't eat, but with the rest of the plant along with other ingredients. We might also see a lot more insect dishes on the menu, too, and a lot more bean, nut and seaweed dishes.

So, we'll still eat out in restaurants and cafés in 2050, but the experience might be a little different to the experience today. I'm looking forward to seeing if my predictions come true!

We all know that we need to do more for the because if we take too much from our planet, there'll be nothing left in the future. We know that we need to stop burning wood because it creates air <sup>2</sup> ... We know that we should reuse things until they break so we put less 3 in the ground. But if we have to 4 things away, we should try to 5 them so we can use the material again. We know that we should turn our down in buildings in winter so we save . We also know we should become or at least stop eating so much meat. The question is, why don't we do these things? Maybe it's because people don't want to believe that bad things will happen in the future and they prefer to look on the bright side. What are your thoughts?

### first conditional

6 Choose the correct verbs to complete the reply to the question.

### Should I get a second job?

The main reason for getting a second job is money. If you 'have / will have a second job, you'll have more money each month. For some people, a second job is necessary. If they 'don't have / will not have two jobs, they won't have enough money to pay their rent, food, etc. at the start of the month. If you have some extra cash at the end of next month, you 'increase / will increase your savings.

A second reason to get a second job is experience. You 4learn / 'll learn new skills if you do something different to your main job. If you 5decide / will decide you love it, you 6have / 'll have the chance to make it your main job.

It's hard to suggest a job without knowing much about you. If you 'love / 'll love nature, you 'enjoy / 'll enjoy taking people's dogs for a walk. If you 'like / will like making things, you 'be / will be happy to make and sell them online. If you 'like / will like social media, you 'probably love / 'll probably love making videos and sharing them. Think about what you enjoy and are good at.

Do you think humans will continue to develop in the future? Will we ¹ and see a person run 100 metres under nine seconds? Will we ² cleverer and really understand the meaning of life? Will we ³ our skills in medicine and live to be 150? Or will the ⁴ of change slow down and the number of new things we discover about the human body go ⁵ each year to almost nothing? In this situation, our human skills and abilities will stay about 6 as they are now. What are your thoughts?
