### Welcome to Touchstone!

We created the **Touchstone** series with the help of the *Cambridge International Corpus* of North American English. The corpus is a large database of language from everyday conversations, radio and television broadcasts, and newspapers and books.

Using computer software, we analyze the corpus to find out how people actually use English. We use the corpus as a "touchstone" to make sure that each lesson teaches you authentic and useful language. The corpus helps us choose and explain the grammar, vocabulary, and conversation strategies you need to communicate successfully in English.

**Touchstone** makes learning English fun. It gives you many different opportunities to interact with your classmates. You can exchange personal information, take class surveys, role-play situations, play games, and discuss topics of personal interest. Using **Touchstone**, you can develop confidence in your ability to understand real-life English and to express yourself clearly and effectively in everyday situations.

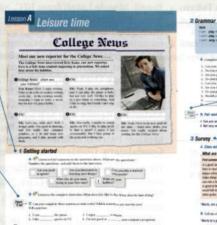

We hope you enjoy using **Touchstone** and wish you every success with your English classes.

# Making conversation

### 1 Reading

A Which of these are good suggestions for social conversations? Check (✓) the boxes. Then tell the class.

	Don't	look at	the	other	person
--	-------	---------	-----	-------	--------

- Keep quiet when the other person is talking.
- Ask questions that start with *what, where, how,* or *when.*
- Have some good topics to discuss. Talk about yourself a lot.

B Read the magazine article. What does it say about the suggestions above? Do you agree with all of the ideas in the article?

# How to improve your conversation skills

Do you like to meet new people? Do you like to talk, or are you shy? Whatever your answers, this guide can help you improve your conversation skills.

Have some topics ready to start a conversation. Say something about the weather or the place you're in. Talk about the weekend - we all have something to say about weekends!

Make the conversation interesting. Know about events in the news. Read restaurant and movie reviews. Find out about the current music scene or what's new in fashion or sports.

Be a good listener. Keep eye contact and say, "Yes," "Hmm," "Uh-huh," "Right," and

"I know." And say, "Really? That's interesting." It encourages people to talk.

Don't be boring. Don't just say, "Yes" or "No" when you answer a question. Give some interesting information, too.

Don't talk all the time. Ask, "How about you?" and show you are interested in the other person, too. People love to talk about themselves!

Ask information questions. Ask questions like "What do you do in your free time?" or "What kind of food do you like?" Use follow-up questions to keep the conversation going. But don't ask too many questions - it's not an interrogation!

Be positive. Negative comments can sound rude. And if you don't want to answer a personal question, simply say, "Oh, I'm not sure I can answer that," or "I'd rather not say."

Smile! Everyone loves a smile. Just be relaxed, smile, and be yourself.

C Look at the article again. Find these things. Then compare with a partner.

- 1. an interesting topic of conversation
- 2. an example of an information question
- 3. a suggestion you would like to try
- 4. a question to show you're interested in the other person
- 5. something you can say to show you're listening
- 6. something to say if someone asks you a difficult question

#### Weddings In Colombia,

the bride and groom each light a candle. Then they light a third candle together and blow out the

first two. This third candle means that they are now one and are going to share their lives together.

In the United Kingdom, Australia, and North America, brides wear "something old, something new, something borrowed, and something blue" for good luck.

In Turkey, the female friends of the bride write their names inside her shoes. After the wedding ceremony, the bride looks inside her shoes. If she can no longer read one of her friends' names, it means that friend is going to get married next.

C Read the article again. Can you find these things? Compare answers with a partner.

# 1 Reading

A Brainstorm the word teenager! What do you think of? Make a class list.

teenager: parties, loud music, fights with parents

B Read the interview. Which of Jennifer's answers are funny? Which are interesting?

### Did you enjoy being a teenager?

It was mostly OK, but I had some difficulties, like everyone else. When you're a teenager, you're unsure of yourself.

#### What were the fashions then?

I was a teenager in the '80s, and so the clothes were very colorful. I was a fashion rebel, though - I always wore black, and I wore a lot of cheap silver jewelry. Often I wore vintage clothing.

# What kind of music did you listen to?

My tastes were varied - I was a classical violinist, but I listened to punk rock and new wave music. I had all my "weird" cassette tapes, and I was never without them.

#### What's your best memory from your teenage years?

I guess it was a trip I took every summer with my youth group. It was a time to travel, be with close friends, and be away from my parents.

#### And your worst?

I think going to school was the worst. I'm not a social type, and it gave me all kinds of anxiety.

#### What's one thing you remember about school?

I remember that everybody tried to be different, but they tried to be the same, also.

#### What was your favorite subject?

My favorite subject was psychology. I loved analyzing my friends.

### Were you ever in trouble? Why?

I got detention lots of times because I was late for school every morning, but I never got in real trouble.

# How did you spend your free time?

Actually, I spent a lot of time driving around in friends' cars, honking at people's houses as we drove by. I also spent time reading, playing with my dog and cat, or tormenting my younger sister.

#### What do you miss about your teenage days?

NOTHING! Except my jeans size.

#### What's one piece of advice you would give to today's teenagers?

Get off your computer, and turn off the TV!

C Add these missing sentences to the interview with Jennifer. Write the numbers in the spaces.

1 I have no idea now why we did that!

I tried my best to look different.

### A Walking Tour of San Francisco's CHINATOWN

San Francisco's Chinatown is the largest Chinese community on the West Coast of the U.S. and is now home to over 14,000 people. Chinese settlers came here as early as 1846, opening businesses near Portsmouth Square.

- The tour begins at the Chinatown Gate at the intersection of Bush Street and Grant Avenue. Walk north on Grant - a busy street of shops selling souvenirs, jewelry, artwork, furniture, cameras, and electronics.
- 2. At the corner of California and Grant, look around Old St. Mary's Cathedral (1891) and its display of historic photographs of 19th-century Chinatown.

- 3. Across from the cathedral on California is St. Mary's Square - a quiet park with a statue of the Chinese revolutionary leader Sun Yat-sen.
- 4. Opposite the cathedral on Grant, the Ching Chung Temple welcomes visitors and has year-round guided tours
- 5. Continue north on Grant, and turn right on Clay Street. Then turn left into Portsmouth Square, and watch local people play cards or Chinese chess.
- 6. Take the footbridge across Kearny Street to the Chinese Culture Center. Here there are exhibitions of Chinese and Chinese-American art, as well as a permanent display of Chinese musical instruments. It's well worth a visit.
- 7. Return to the square, and turn left onto Washington Street. On the left is the Old Chinese Telephone Exchange. Now a bank, the exchange opened in 1909. Operators had to speak English and five Chinese dialects.

- 8. Continue west on Washington, and turn right into Ross Alley. Near the end of the block is the Golden Gate Fortune Cookie Company, where you can sample the fortune cookies.
- This is where your tour ends. We hope you enjoy your tour of San Francisco's Chinatown.

# Interesting places

# 1 Reading

A Brainstorm! Do you ever stay in hotels? What's fun about staying in a hotel? Make a class list.

You don't have to cook or make your bed.

You can sit by the pool to relax.

**B** Look at the article quickly. Where are these unusual hotels? Then read the article. Which hotel would you like to stay in? Why? Tell a partner.

# Somewhere different

Three of our fearless travel reporters checked out some very unusual hotels.

#### Dive into the lobby. .

Most divers go underwater to see fish and coral reefs. But in Florida, in the U.S., you can also stay at the world's only underwater hotel. It takes about an hour to dive down to the Jules Undersea Lodge. Then you swim up into the pool in the lobby to check in. The rooms are small, so you should only take a few things. Fortunately, the hotel packs them in a waterproof container and takes them there for you.

#### Salt, salt, everywhere . . .

The Hotel de la Playa in Bolivia is certainly different. It's almost completely made of salt - the walls, tables, chairs, and even the beds. Everything except the toilets! While we were there, we visited Fisherman's Island fabulous 12-foot cacti. It's fun to rent mountain bikes to go and see the salt hills, lakes, and hot springs. Just be sure to take sunglasses - the sun gets extremely bright.

#### A place to chill out .

It's a pretty long way to go to stay at the Ishotellet (Ice Hotel) - 100 miles north of the Arctic Circle in Sweden. But it's definitely worth the effort. It's hard to imagine sleeping on an ice bed, but with a reindeer skin and a good sleeping bag, I was warm. And my wake-up call came with a hot drink. You can always go to the sauna to get warm. too. The hotel has an art gallery, a chapel, a movie theater, a disco. and a fabulous ice fireplace in the lounge. Make sure you check out of the hotel before it melts in the spring! But don't worry - they rebuild it every winter.

# AT HOME – How typical are you?

Do you make your bed every day? Do you try to save electricity at home? Are you a pack rat? Read about the home habits of Americans – are they the same as yours?

#### Making beds and doing dishes

74% of people make their beds every morning. 5% *never* do. And 3% actually change their sheets every day.

Do you wash the dishes right after eating? 58% of Americans do, but 5% let theirs sit for two or more days!

#### Neat and tidy

Are you an organized person? 13% of people alphabetize their books and CDs, or organize them in some way!

The average home has 13 cleaning products around the house.

#### Pack rats

How long do you save magazines? About half the population throws away old ones after six months. But 20% keep them for years and years.

#### Lights out

Are you careful about saving electricity? 25% of people turn off the light when they leave a room. 8% never do. Four out of five leave the lights on when they go out at night.

# Who does the laundry?

Men do 29% of the 419 million loads of laundry washed each week. Almost all unmarried men do at least one load a week.

- Do you change your clothes first? What do you do next?
- What do you do before you have dinner?
- Do you watch TV while you're eating?
- Do you do the dishes right after dinner?
- Do you have a snack before you go to bed?
- What's your bedtime routine?

A OK, so what do you do as soon as you get home? I check my phone messages. B Really? I always get a glass of water or something.

D Use your notes to write a short article about the evening routines in your group. Use the headings below.

Evening Routines

First things first

Most of the people in our group change their clothes as soon as they get home. One person has some juice or soda first and then changes. We all do different things next. Most of us eat a snack, but one person never eats before dinner.

Dinnertime

Everyone eats dinner at home. Half of us watch TV while we are eating. Half of us talk to our family during dinner. No one does the dishes right after dinner.

Time for bed

All of us watch TV before we go to bed. Some of us go to bed early, and some of us go to bed late, after we watch the news. We all

read for about half an hour when we go to bed.

#### **Acts of Kindness**

A few weeks ago, I was walking to my car in the parking lot, when someone came up to me and said he enjoyed reading my weekly column. "But," he said, "you

always write about everyone's bad experiences. Why don't you ask people to talk about their good experiences, too?"

So I asked readers to write in and tell me about all the good things that happened to them recently. I got hundreds of replies. Here are three of them:

I was coming home from a party really late at night, and I missed the last train home. I didn't have enough money for a cab, and I didn't want to walk home in the dark. I was standing outside the train station, and I guess I looked worried because a woman came up and asked me if I needed any help. She offered to share a cab with me and to pay for it! She said she didn't like being by herself at night, either. I was so grateful.

- Abby Walters

When I was shopping at the mall last week, I lost my wallet with all my money and credit cards in it. I spent a long time looking for it with no luck. I was really upset because it had my spare house key and my address in it, too. Anyway, later that day after I got home, my doorbell rang. It was a young man, and he had my wallet. Apparently, he saw it on the ground when he was walking into the mall. He drove all the way to my house to give it to me! I couldn't believe it! I was so lucky! - Andrea Keane

After class each week, I often go to the local donut shop and get some coffee before I go home. When I was leaving the store last week, the owner gave me a bag of donuts from the day before to take home for free. She said I was a good customer, and she didn't want to throw them out. When I got home, I shared them with my roommates! - John Jones

So, thank you for all the letters. For next week. I want to hear about any funny stories you have. What funny things happened to you recently?

C Read the article again. Are the sentences true or false? Correct the false sentences.

- 1. Nelson Hunter usually writes about good things that happen to people.
- 2. Abby Walters had to pay for a cab home when she missed her train.
- 3. Andrea was worried because if someone found her wallet, they could get into her house.
- 4. A young man found Andrea's wallet when he was leaving the mall.
- John ate the bag of donuts by himself.

Dear Nelson.

Last week, I was walking to work when it started to rain. I didn't have an umbrella, so I put a newspaper over my head and ran.

When I got to the corner, the light changed, and I had to wait for a really long time. While I was waiting, a young man came up to me and offered to share his umbrella. He walked with me all the way to work! It was so nice of him.

## 1 Reading

A Can you match these text messages with their meanings? Compare with a partner.

**B** Read the article. Find four reasons why text messaging can be useful.

Most users (64%) say texting is a good way to send romantic messages - it's easier to say "I love you" in a text message than in a phone call. Maybe that explains why more people now use texting to send Valentine's Day messages.

and 11:00 at night!

#### Upsides and downsides

Generally, texting is cheaper than making phone calls. It's also more direct, since you can send or get information without having to ask and answer polite "How are you?" questions.

And it's more discreet, too. No one can hear your "conversations," and you can receive text messages almost anywhere - at work, in meetings, or in class. You can also use texting in noisy places like nightclubs, where using a cell phone is difficult.

#### A new language?

Because it's quicker to "write" without apostrophes and vowels, texting has its own language. And it's fun to use the symbols. There's

a best-selling dictionary (or "DXNRE") for texting called Wan2tlk?

Some people say that texting encourages bad punctuation and spelling. On the other hand, more teens are writing than ever before. Now, that has to be a good thing!

- C Read the article again, and answer the questions. Then compare with a partner.
- 1. What do people use texting for?
- 2. Why does texting need its own language? How is it different from "real English"?
- 3. What are some of the advantages of text messaging?
- 4. Why do some people think text messaging is bad?

#### 2 Listening Text messaging

Read the sentences below about text messaging. Then listen to Ally, and check ( ) the sentences she agrees with. Which ones do you agree with? Discuss with a partner.

It's convenient.	It's less embarrassing than talking on the phone in public.
It wastes time.	It's annoying. It makes phones "beep" a lot.
It's fun.	It's quicker than a phone call.
It's good for emergencies.	It's difficult. The symbols are hard to learn.

B Read the article. Which hairstyles do you know about? Which do you like?

# Hairstyles through the decades ...

Do you know how people wore their hair 10, 20, or 30 years ago Look back at the hairstyles of the last 50 years. There are some styles that come back again and again.

The 1950s were the beginning of the "rock 'n' roll" era. In the early '50s, men had short hair, but singer Elvis Presley changed all that when he combed his long hair into a "pompadour" and "duck tail." The ponytail was a popular hairstyle for young women.

The '60S was the decade of the Beatles, who caused a sensation when they grew their hair long - to their ears! In the late '60s and the early '70s, the "hippie look" was in style. Men and women grew their hair very long, and many men wore beards. And the "Afro" was a popular hairstyle for

African-Americans and anyone with curly hair or "perms."

Punk rockers shocked everyone with their multicolored, spiky hair in the '70s. Then in the late '70s and '80s, the soap opera stars made "big hair" popular - women wore their hair very long, curly, and full.

The "new romantic" women of the '80s wore hairstyles from the 19th century - long curly hair and French braids. For many men, the "mullet" cut (short on top and long in the back) was the hairstyle to have.

In the '90S, dyed hair became stylish. Both men and women started changing the color of their hair or adding highlights. Some men began to bleach their hair blond.

What will people say about the hairstyles of the early 21st century? Look around you. Do you see any styles that are really "new"?

#### 1 Reading

A Brainstorm! What will life be like in the future? Will it be better or worse for most people? Why? Tell the class.

"I think life will be better. People will be healthier, and we'll have better medicine."

B Read the article. Which predictions did you already know about? Which were new?

# What will life be like in the future?

Body and health Health watchers predict that in many countries people will get taller. We will also get heavier. This is because we're eating more junk food and exercising less. However, we may not have to diet in the future. Scientists are working on a device to break down fat with ultrasound. Let's hope!

Online...all the time Before long, we'll all be on the Web – all the time. Everything around us, including clothes, jewelry, and even glasses, will contain devices that connect us to the Internet. For example, with tiny cameras in your sunglasses, you'll be able to take a picture –

Automated homes The technology is already here, but by the 2030s most homes will be fully "automated." With computer chips in most appliances, you'll be able to turn on the heat or the lights just by making a phone call home. Scanners in your "smart" refrigerator will read the bar codes on food packages, and then tell you when the food goes bad. Even better, your refrigerator will go online to order more food when you run out. No more grocery shopping!

#### Work and play

In 20 to 30 years' time, only 20% of people will work in an office, and more of us will work from home.

But that doesn't mean we'll be able to watch TV all day. With videophones and webcams, the boss will be able to keep in touch and see exactly what we're doing. Uh-oh.

You may not have to commute to work, but if you want to drive on the weekend, you'll have to use a smaller, environmentally friendly car, reserve road space in advance, and pay road charges.

More brain power? Scientists say they'll be able to build a computer that is like a human brain by 2020. Robots with these artificial brains will do many jobs that humans do today. Road travel should become safer because cars will operate themselves. So by the 2030s, there won't be any more car accidents.

We'll be able to put computer chips in the human brain to make us smarter and increase our knowledge. But soon computers will become more intelligent than people. Some futurologists predict that by 2050, computers may even take control of our lives. Scary, huh?

C Read the article again. Check (✔) the predictions the article makes.	Unit 12 Looking ahead
☐ 1. People will get taller, but they'll also be fatter.	
<ul> <li>2. People will probably use ultrasound to lose weight.</li> </ul>	
☐ 3. Everyday items will connect to the Internet.	
4. Computers in our refrigerators will choose our food for us.	
☐ 5. Fewer people will work in an office.	
6. By 2030, there will be more car accidents.	
☐ 7. Computers will become smarter than human beings.	
<b>D</b> <i>Pair work</i> If the predictions are right, will they make our lives better or Discuss with a partner.	worse?

Eve Yeah. I'm just in New York for the weekend.

Eve Oh, sure. I have free tickets.

# How can I use the Self-study Audio CD/CD-ROM?

You can use it in two ways: as an Audio CD or as a CD-ROM. Just follow the instructions below. With a CD player, you can listen to the two parts of the conversation from the Conversation Strategy section and complete the Self-study listening exercise at the back of the book. You can practice the conversation by pausing your CD player. You can do the same listening practice with a computer. You can also practice the conversation, record it, and listen to it. In addition, you can find a list of all the words and expressions from the book. You can add your own vocabulary to the list and organize the words in different ways.

Play the disc on an Audio CD player for extra listening and speaking practice.

### LISTEN

- A Go to the Self-study Listening pages at the back of your book. These pages give CD track numbers, listening exercises, listening scripts, and answer keys.
- B Play the conversation from the Conversation Strategy section of the unit (Part 1). Read the conversation as you listen, or listen with your book closed.
- C Play the rest of the conversation (Part 2), and do the exercise as you listen. Use the Self-study Listening Answer Key to check your answers.
- D Listen to the rest of the conversation (Part 2) again as you read the Self-study Listening Script.

### PRACTICE

Practice each line of the conversation.
Play Part 1 and Part 2 of the conversation again. Press Pause to practice a sentence or line. Then press Play and continue. You can read the conversation as you practice or practice with your book closed.
